sebastian.paternostro@gmail.com · linkedin.com/in/spaternostro99 · spaternostro.com.ar/hire

PROFESSIONAL PROFILE

UI/UX Web Designer and Front-End Developer specialized in e-commerce and digital products. Experience across the full lifecycle of a site: from research and visual prototyping in Figma through layout, template customization, and responsive interface implementation. Proven record managing more than 30 B2B/B2C clients and up to 10 projects in parallel, combining aesthetic judgment, conversion optimization, and clean technical implementation.

EXPERIENCE

NetOne Soluciones Web — E-commerce UI/UX Designer & Web Implementer

June 2024 – July 2026

- Designed and implemented the visual structure, interface, and responsive layout for more than 30 B2B and B2C stores and websites (on platforms such as TornadoStore and GlobalBluePoint).
- Customized and built web templates, adjusting HTML, CSS, JavaScript, and basic PHP to each client's visual and brand requirements.
- Managed up to 10 projects in parallel as the direct client contact for meetings, discovery, quality control (visual and functional QA), and post-launch training.
- Wrote technical specifications for the backend development team on features that required custom integrations, and reviewed the final result.
- Selected work:
 - GamingCity (gamingcity.com.ar): E-commerce store migration and implementation.
 - Accesorios Jorge (accesoriosjorge-jrd-mayoristas.com.ar): Design and layout of a B2B catalog and wholesale ordering system.
 - Biotec S.A. (biotecs.com.ar): Visual redesign and layout of a bilingual industrial site.
