

Sebastián Elías Paternostro

Web designer specialized in ecommerce

Japan, through September 2027 · Remote, flexible hours (Europe, United States, and Latin America)

sebastian.paternostro@gmail.com · linkedin.com/in/spaternostro99 · spaternostro.com.ar/hire

PROFILE

I design websites, mostly ecommerce, from scratch or by reshaping what is already there. I then support what is live and can add new pieces. At NetOne (2024–2026) I worked on 15+ B2B and B2C projects: client contact, structure, responsive interface, QA, and training.

I work on TornadoStore, GlobalBluePoint, and TiendaNube, and also in HTML, CSS, and JavaScript. When a feature needs an integration or backend work, I specify it for development and review the result.

EXPERIENCE

NetOne Soluciones Web — Ecommerce web designer Jun 2024 – Jun 2026

- Designed and published 15+ B2B/B2C stores and sites on TornadoStore and GlobalBluePoint.
- Defined catalog structure, navigation, pages, and responsive layout, and implemented the interface on the platform.
- Client contact on my projects: meetings, revisions, visual and functional QA, and launch.
- Trained clients to operate the store.
- Specified for development the features that needed an integration or backend work, and reviewed the result.

Shipped work: GamingCity (gamingcity.com.ar), migration before Mercado Shops shut down. Accesorios Jorge (accesoriosjorge-jrd-mayoristas.com.ar), wholesale catalog and ordering. Biotec S.A. (biotecs.com.ar), bilingual industrial site.

sPaternostro — Freelance web designer Sep 2022 – Dec 2023

Websites and small stores for local businesses. Structure, interface, and layout in HTML, CSS, and JavaScript.

RET — Web designer, frontend layout May 2022 – May 2023

Turned existing UI specs into HTML, CSS, and React, focused on layout and responsive implementation.

JULMAR — Web designer and interface support Dec 2021 – Dec 2022

Maintenance, responsive fixes, and updates on institutional and ecommerce sites.

TRAINING

Courses, no university degree. Front-End with React — Oracle Next Education / Alura (2023). Full-Stack Python and SQL — Codo a Codo (2024). Business Agility and Scrum — Alura (2024).
