PROFILE

I build online stores and websites and ship them. At NetOne (2024–2026) I took 15+ B2B and B2C projects from client requirements through the interface, the frontend, QA, and training so the client could run the store. I work on the platform and in code: HTML, CSS, JavaScript, and React.

EXPERIENCE

NetOne Soluciones Web — Ecommerce web designer and developer Jun 2024 – Jun 2026

- Shipped 15+ B2B and B2C stores and sites on TornadoStore and GlobalBluePoint.
- Owned structure, responsive layout, and implementation. When a feature needed custom code, I followed it with the development team.
- Client contact on my projects: requirements, revisions, and launch.
- Visual and functional QA before release, plus training so the client could operate the store.

Shipped: GamingCity, migration before Mercado Shops shut down — gamingcity.com.ar · Accesorios Jorge, wholesale ordering — accesoriosjorge-jrd-mayoristas.com.ar · Biotec S.A., bilingual industrial site — biotecsa.com.ar

sPaternostro — Freelance web designer Sep 2022 – Dec 2023

Websites and small online stores for local businesses, in HTML, CSS, and JavaScript.

RET — Frontend web designer May 2022 – May 2023
