

Sebastián Elías Paternostro

Web designer specialized in ecommerce

Japan, through September 2027 · Remote, flexible hours / on-site in Japan
sebastian.paternostro@gmail.com · linkedin.com/in/spaternostro99 · spaternostro.com.ar/hire

PROFILE

I design online stores and websites, and I stay with them from the first conversation through support after launch. At NetOne (June 2024 – July 2026) I worked with more than 30 B2B and B2C clients, and at times I was running 10 projects at once: structure, interface, implementation, client contact, QA, and training.

The technologies I use most are HTML, CSS, JavaScript (vanilla, React, Next.js), TypeScript, and Tailwind. When a feature needs an integration or backend work, I specify it for development and review the result.

EXPERIENCE

NetOne Soluciones Web — Ecommerce web designer	Jun 2024 – Jul 2026
- Worked with 30+ B2B/B2C clients, at times running 10 projects at once, on TornadoStore and GlobalBluePoint. - Defined catalog structure, navigation, pages, and responsive layout, and implemented the interface on the platform. - Client contact on my projects: meetings, revisions, visual and functional QA, and launch. - Trained clients to operate the store. - Specified for development the features that needed an integration or backend work, and reviewed the result. Shipped work: GamingCity (gamingcity.com.ar), migration before Mercado Shops shut down. Accesorios Jorge (accesoriosjorge-jrd-mayoristas.com.ar), wholesale catalog and ordering. Biotec S.A. (biotecsa.com.ar), bilingual industrial site.	
sPaternostro — Freelance web designer	Sep 2022 – Dec 2023
Websites and small stores for local businesses: structure, interface, and layout.	
RET — Web designer, frontend layout	May 2022 – May 2023
Turned existing UI specs into code, focused on layout and responsive implementation.	
JULMAR — Web designer and interface support	Dec 2021 – Dec 2022
Maintenance, responsive fixes, and updates on institutional and ecommerce sites.	

TRAINING

Front-End with React — Oracle Next Education / Alura (2023). Full-Stack Python and SQL — Codo a Codo (2024). Agile and Scrum — Alura (2024).
